

August 11, 2025

Dear patient,

Manchester Care Center would like to thank you for the trust you have placed in our team. Your health and wellness are top priorities for us, and it is an honor for our entire group to be involved in your care.

We are writing to inform you that Manchester Care Center will be closing, effective Oct. 31, 2025. Our team of providers will continue to be available to care for you until then.

We are committed to seamlessly transitioning your care. If you have an upcoming appointment with our office after Oct. 31, we have several options for a new primary care provider at one of the locations listed below:

Central Maine Family Practice - (207) 795-5750
Central Maine Pediatrics - (207) 795-5730
Elsemore Dixfield Family Medicine - (207) 562-4226
Family Healthcare Associates - (207) 784-7388
Minot Avenue Family Medicine - (207) 795-8475
Swift River Family Medicine - (207) 369-0146

After Oct. 31, orders for testing signed by a provider in our office will need to be signed by your new primary care provider. This will ensure that results will be delivered timely to your new provider. If you have not received a pending result after Oct. 31, please follow up with your new primary care provider.

Your medical records will continue to be available to you. To request your records, you will need to fill out an authorization form which is available on our website or by calling (207) 795-2480.

We understand this is difficult news, and our care team remains available to support you through this transition. If you have specific questions about your care, please call us at (207) 621-2500.

Thank you again for allowing us to be a part of your care team. It has been an honor to serve the Manchester community.

Sincerely,

A handwritten signature in blue ink, appearing to read "CHOD", is written over a light blue circular background.

Christopher Hodgkins, MBA
Director - Regional Clinics, Care Centers
